

Creating a Report on Users & Teams

Software Support - 2019-04-11 - Reports

This KB article has step-by-step instructions in order to provide a detailed report on all users & teams within a workspace.

1. Open the workspace that you wish to report on.
2. Click "manage workspace" and select "members" from the drop-down.
3. Select "Report on these members" from under the "actions" list at the bottom.

This will display a quick report - user, as shown below:

Quick Report - User

Report Format

Show me the responses as:

☒ Chart
 ☐ Tabular Report

I want the report returned in:

☒ Web Browser
 ☐ PDF
 ☐ Microsoft Excel
 ☐ CSV
 ☐ XML

Data Series (Chart)

How do you want to show the data?

☒ Bar
 ☐ Pie

What information to report on?

Run the Report

Click on the "Run" button to generate the report in a new window. Click on the "Manage / Save >>" button to add further options or save the report.

You can either choose the following formats chart or tabular report.

The chart will display the data in a graph whereas the tabular report will display much more data within a table.

You also then have the choice to display the results in the web browser or export them to PDF, Microsoft Excel, CSV or XML files.

In this example, I'm creating a detailed report so therefore we'll continue to use a tabular report.

4. Change the responses from "chart" to "tabular report" which will provide much more in-depth details as shown below:

Attributes (Tabular Report)

Select the fields to appear in the report

- ☒ User Email Address
- ☒ User Email Address Domain
- ☒ User First Name
- ☒ User Last Name
- ☒ User Name
- ☒ User Organisation
- ☒ User Social Contacts (formatted)
- ☒ Workspace Member Type
- ☒ Team Names
- ☒ Is Manager?
- ☒ Is Moderator?
- ☒ User Last Activity Date (yyyy mmm dd hh:mm:ss)
- ☒ Join Date (dd mmm yyyy hh:mm:ss)
- ☒ Last Invite Date (dd mmm yyyy hh:mm:ss)

Sort by

Group by

5. All attributes are ticked by default, remove any if not required.
6. Select how you would like them "sorted by" from the drop-down.
7. Select "team names" from the "grouped by" drop-down.
8. Either "run" the report or you can "manage/save" the report for a later date

This report will now provide all the information you require regarding the users and teams within the workspace.
