Kahootz Enterprise

Marketing Team - 2018-11-20 - in Licensing

Kahootz is available in three editions — Trial, Professional and Enterprise.

Our Trial edition is just that. It's your chance to get to grips with Kahootz free of charge and put its powerful features to work for the first time. You can use it for 30 days for up to 25 users.

When you graduate to our Professional Edition you get access to all of the features of our collaboration suite that the average team or organisation could need.

Our [Enterprise Edition](#) is designed for organisations with 250 users or more. It gives you maximum flexibility and access to a whole range of customisation features. Deep level access allows you to integrate Kahootz fully into your existing systems, giving them additional power.

If you commit to 1,000 users or more, you can take advantage of our Active User licensing. This means you can have an unlimited number of registered users, but only pay for the ones that use Kahootz each month, (above your agreed threshold.)

There's no need to predict how many users you will need - you're only paying for actual usage.!

If you're unsure which edition is right for you, [contact us for advice](#).
